Letter of recommendation

Based on a successful trial and test period using the AXIWI® full duplex hands free referee communication system.:

We, the Dutch Korfbal Association, have decided to equip all of our top class referees with the AXIWI communication system.

Due to this new AXIWI® system the communication between the field referee and his assistant has improved considerably. The speed and correctness of the communication has improved and miscommunication is reduced.

The AXIWI communication system is user friendly and can be set up within a minute. It has a very sufficient , clear and loud sound.

The AXIWI communication system can be used for 8 hours and is easy rechargeable by a USB charger. With its small dimensions and very low weight of 39 grams , only, it is very comfortable to use and wear.

With kind regards,

Henry van Meerten

Manager referees and Competition
