Letter of recommendation

Based on a successful trial period using the AXIWI® full duplex hands free referee communication system; we, the Dutch Handball Federation, have decided to equip all of our top class referees with the AXIWI communication system.

Due to this new AXIWI system the communication between the field referee and his assistant has improved considerably. The speed and correctness of the communication has improved and miscommunicating is reduced. The AXIWI communication system is user friendly and can be set up within a minute. It has a very sufficient, clear and loud sound.

The AXIWI communication system can be used for 8 hours and is easy rechargeable by a USB charger. With its small dimensions and very low weight of 39 grams only, it is very comfortable to use and wear. Various AXIWI headsets are available.

With kind regards,

Ferry van der Helm
Chief of Referee Dutch Handball Federation
