Letter of recommendation

Over the last 2 months we have tested and used the AXIWI® full duplex hands free referee communication system in several football matches and we SC 't Gooi are extremely satisfied to work with the AXIWI communication system during our matches.

Due to this new user friendly AXIWI® referee system, the communication between the field referee and his assistants has improved considerably. The speed and correctness of the communication has improved and miscommunication is reduced.

The AXIWI communication system and can be set up within a minute. It has a very sufficient, clear and loud sound and has an affordable price.

The AXIWI communication system can be used for about 8 hours, so long enough to use during 2 matches after each other. And is easy rechargeable by a USB charger. Due to its small dimensions and very low weight of 39 grams, only, it is very comfortable to use and wear.

With kind regards,

T Hoogendoorn
SC. 't' Gooi
